Cliente: LAN NET Solutions, LLC

Industry: Telecommunications

Location: Texas

Antecedentes da empresa:

LAN NET Solutions, com sede no Texas, é a vencedora do programa de recompensas [LinkWare Live](#) da Fluke Networks. Como diz o ditado, tudo é grande no Texas, e o prêmio [OptiFiber Pro](#) que a grande vencedora LAN NET Solutions ganhou é um grande prêmio.

LAN NET Solutions, LLC provides structured cabling installation solutions to support existing and emerging technologies for voice and data applications. The company, which was founded in 2013, is proud to offer its business and residential customers in Texas and the southwest high quality, honest answers to all of their cabling needs.

Desafios

Jim Bringolf, President of LAN NET Solutions, finds that using [LinkWare Live](#) helps the company save time in several ways. One of capabilities the company appreciates is being able to create tests in advance, making the certification process much quicker once they are on-site. Uploading test results from job sites is also faster and easier with [LinkWare Live](#).

Solução

[LinkWare Live](#) cuts costs and prevents errors by letting project managers check on testing progress, without being physically present. "That was one things we were really excited about when we were working on a big project recently," said Scott Hooks VP and Owner. "We had a total of 8000 tests for this particular job, and we were able to set up and name all of the tests ahead of time. Then, while testing was underway, we could check to see what percentage was done while we were sitting in the office."

Result

[LinkWare Live](#) was introduced by Fluke Networks late in 2014. It's a cloud-based service that works with Fluke Networks Versiv testers, including DSX-5000, [OptiFiber Pro](#) and [CertiFiber Pro](#) certification testers. The [LinkWare Live](#) platform allows users to upload, manage and analyze complex certification test results from anywhere. To date, more than one million test results have been uploaded to the [LinkWare Live](#) platform by Fluke Networks customers.

Sobre a Fluke Networks

A Fluke Networks é a líder mundial em ferramentas de certificação, resolução de problemas e instalação para profissionais que instalam e fazem a manutenção da infraestrutura crítica de cabeamento da rede. Desde instalar os mais avançados centros de dados até restaurar o serviço no pior clima, nossa combinação de lendária confiabilidade e desempenho sem paralelo garante que os trabalhos sejam realizados eficientemente. Estão entre os produtos mais importantes da empresa o inovador LinkWare™ Live, a solução líder mundial para certificação de cabos conectada à nuvem com mais de quatorze milhões de resultados carregados até este momento.
